New GM for Vero Construction and Engineering

5 October 2006: Mr Brad Dalton has been appointed to the role of General Manager, Vero Construction and Engineering (C&E), replacing Tony Smith who will move to the position of Head of Reinsurance at Vero.

Mr Dalton has worked at Vero for three years in the Construction and Engineering business, most recently as Operations Manager. His areas of expertise include construction, liability, strategy and planning. He has worked for US and European insurance companies within Australia and overseas.

One of his latest achievements is that he was instrumental in setting up the Vero Alliance Wrap product in conjunction with Vero Profin. Alliance Wrap is designed to meet the unique insurance requirements of construction alliances by incorporating contract works, contract liability and Alliance professional indemnity under a single product. Mr Dalton's contribution has helped make C&E the successful business it is today and will continue to be in the future under his leadership.

Mr Dalton said he is looking forward to leading the Construction and Engineering team to successfully implement their strategy for 2007.

"We will continue to build on Vero's leading market position in the mining and infrastructure sectors, and develop web based applications for both the construction and machinery lines.

"We will also look to consolidate our position in the residential construction and warranty market", he said.
