

Premium Generator

What is Premium Generator?

Premium Generator is a web-based application which helps brokers to quote and bind cover for:

- ▼ Annual Transit covers - inland Australia, imports and exports
- ▼ Single Transit covers - including household removals
- ▼ Carriers - goodwill cover

Generator streamlines and simplifies completing a quotation.

Step 1

There are four main screens to complete for a quotation:

1. Product selection
2. Information screen, a single page providing:
 - ▼ Commodity
 - ▼ Values - sendings value and limit required
 - ▼ Claims history
 - ▼ Type of cover required
3. Premium screen including excess options
4. Free format details to show on documentation

Step 2

It's simple - just email the quotation to your client, the client reviews the quotation, signs and accepts terms

It's your choice - Premium Generator can email the quotation direct to your client, you can email this yourself, or save it in PDF format

Step 3

You can bind cover online

Once the client has reviewed and accepted terms, the cover can be bound in Premium Generator and you will be issued with a cover note

Other Benefits

- ▼ You can manage access and passwords for Premium Generator at your office
- ▼ Referrals are managed via the Premium Generator system allowing for quick turnaround times
- ▼ Vero National Marine staff can assist you with your queries

Access to Premium Generator

- ▼ To find out more about Premium Generator, please see contact details overleaf

What can we offer you and your client?

Cargo Insurance

For transits within Australia we offer a range of quality plain language products that clearly describe the cover and benefits. For transits to and from Australia or worldwide to worldwide, we offer comprehensive, internationally accepted wordings, along with our E-cert system for export certificates.

Covers are also available for single transits or on an annual basis, as well as carriers goodwill.

We can also work with you to produce specific wordings for a particular type of risk or commodity such as perishable foods or bulk goods.

Commercial Hull

Insuring commercial vessels requires a direct understanding of the client's business, the vessels employed in that business and the protection required for the risks involved. Vero National Marine has experts in this class of business. Examples of the Commercial Hull risks insured include:

- ▼ passenger vessels, excursion and tourist vessels
- ▼ tug and barge operations, coastal trading and port operation vessels, fishing vessels, dredgers and barges
- ▼ innocent owners/mortgagees cover, loss of charter hire, loss of earnings and builders risk.

Marine Liability

Vero National Marine can provide specialist insurance cover for a range of Marine Liability risks including:

- ▼ charterers liability
- ▼ port operators' liability
- ▼ stevedores' liability
- ▼ terminal operators' liability
- ▼ ship repairers' liability
- ▼ marina operators' liability
- ▼ marine contractors' liability.

Claims Service

With well trained staff and the resources available from our worldwide network, we can provide the claims service you and your clients expect.

Our starting point is always 'If it's covered, let's get it paid.' And we prioritise communication with all parties to ensure this happens.

Qualifying claims, with sufficient documentation, are fast-tracked to ensure they are dealt with by specialist staff who are able to undertake the necessary technical procedures accurately and efficiently.
