

Flood preparation checklist

Vero cares about protecting your staff and business. Some floods develop slowly while others, like flash floods, can hit in an instant. This checklist should help equip you in case an emergency takes place.

Emergency kit

Prepare an emergency kit (this can include first aid supplies, torch, battery operated radio, important documents and medicines)

Check utilities

Identify where and how to turn off the mains supply for water, power and gas

Check vehicles

Ensure vehicles are in good working order

Be prepared

If a warning is issued for your area, ensure your mobile battery is full and you have a full tank of fuel

Check insurance

Review your contents insurance regularly to ensure your sum insured is adequate

Check alerts

Use local alerts and warning systems to keep up to date with information

Follow advice

Follow emergency services' advice and evacuate immediately when directed

Don't take risks

Be wary of rising waters when driving, and don't drive across flood waters

Protect items

Bring any outdoor furniture inside and move essential items to an upper floor
