

Vero Specialty Lines

Equipment Breakdown Appetite Guide

November 2024

Why Choose Vero Specialty Lines?

Product / Service Proposition

As a market leader in Equipment Breakdown insurance, we provide broad policy coverage solutions tailored to your needs. Here are just some of the reasons we stand out:

- **Expertise, capability, and underwriting service:** Our skilled underwriting, claims and risk engineering teams provide nimble service and tailored solutions.
- **Enhanced coverage:** Our policy prioritises repair and replacement with new components and equipment, ensuring your clients get back to business with new equipment as soon as possible. Plus, we can now provide a contribution towards upgrades through our new additional equipment upgrades cover following an insured event.
- **Comprehensive protection:** Our policies cover a wide range of exposures that are often excluded by warranties, maintenance agreements, or standard property policies, providing broader protection for your clients' equipment and business.
- **Exceptional claims service:** Our experienced Equipment Breakdown claims team supports you through the claims process. With enhanced policy coverage and award-winning claims management, our approach is designed to deliver fast and efficient settlements, utilising one-touch claims processes wherever possible.
- **Comprehensive risk management:** Our dedicated Risk Engineering team delivers insights and recommendations to assist with continuous improvement of your client's equipment. Brokers receive access to a suite of risk management resources including insightful loss prevention articles.
- **Broker training:** We provide extensive training for brokers, enhanced by detailed educational materials and resources.
- **Long-term partnership:** Vero's proven long-term stability in capacity, appetite, and rates, combined with our underwriters working directly with you to develop the opportunities within your existing client base, enables you to engage with us confidently, ensuring there will be no surprises along the way.
- **Online quote tool:** Access to Vero's user-friendly online quote tool enables you to bind coverage and download necessary documentation in real time, streamlining your insurance processes for maximum convenience.

Appetite Criteria

We focus on delivering solutions to well-managed risks across a broad range of sectors. Our target market is underpinned by:

- **Broad Appetite:** Vero has a broad appetite for Equipment Breakdown risks, allowing us to write accounts across various segments—from small SME clients to large corporates.
- **Occupation:** We maintain a broad appetite that caters to nearly all occupations, with only a limited set of exclusions, ensuring comprehensive coverage options for most industries.

Minimum Requirements

To provide terms, please include:

- **Underwriting Submission:** Property/package asset schedule including individual risk addresses, asset values, and any relevant risk management information.
- **Spoilage of Stock Values:** Maximum value of spoilage of stock held at each site.
- **Claims History:** Minimum 3 years of claims history – whether insured or not.
- **Current Insured Status:** Information on current insurance coverage and prior insurer details.
- **Survey Requirements:** Ability to conduct a site survey or provide information for phone surveys for large manufacturing or complex risks.

Market Insights

- **Growth Potential:** Equipment Breakdown insurance penetration in Australia is low compared to the United States. This highlights significant growth opportunities for brokers to close this protection gaps for clients.
- **Product Misconceptions:** There is a prevalent misconception about the value of Equipment Breakdown insurance, leading to underutilisation. Many businesses rely on alternative protection mechanisms, such as warranties and maintenance programs, which can lead to inadequate coverage.
- **Sector Opportunities:** High potential exists in sectors such as property owners, accommodation, food manufacturing, woodworking, metalworking, clubs, aged care and professional offices, where many businesses lack adequate protection.
