

# Vero Specialty Lines Higher Hazard Property Insurance

We understand the growing requirement to find solutions for clients with more complex property risk needs across a range of higher hazard industries be it in warehousing, manufacturing, retail or wholesale operations – such as plastics, chemicals, and timber.

## Take a closer look at the key benefits of Vero's Higher Hazard Property Insurance:

-  Direct access to a dedicated team of skilled underwriters to help you find solutions for your clients, with a focus on customer service.
-  Access to Vero's specialist risk engineering team, including the provision of a Risk Engineering Report\* as part of most policies to proactively identify and manage potential risks.
-  A Risk Mitigation Rebate Program to reward eligible clients with rebates for their efforts to mitigate risk. T&Cs apply.^
-  Award-winning claims team, with individual contacts provided at bind, ready to respond when it may matter most.
-  In-person product training, to equip you with the knowledge to better serve clients.

We've included risk mitigation as part of our core offering — because proactively managing risk can help reduce the likelihood of business disruptions and costly claims.
